'together aspire, together achieve, together we are stronger...'

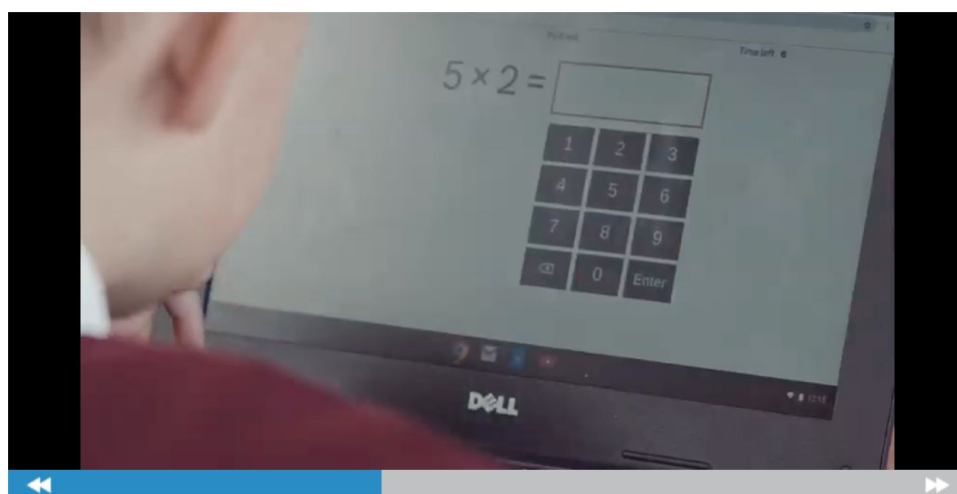

Tuesday 2nd April 2019

Dear Year 4 Parents,

Year 4 National Multiplication Check

In 2020 Year 4 children will take part in a new, national statutory multiplication check. The Government are piloting the tests this year and The Coastal Federation will be taking part.

The test will judge how well each child knows their multiplication tables up to 12x12, using an online testing tool which we can administer during the summer term. The results will be shared with us to help us best support the children. There is a link below to a video which explains a little more about it.

[CLICK TO WATCH VIDEO](#)

The children will get a chance to try to familiarize themselves with the format of the test after Easter, so that they know what to expect when we do the pilot test for real. Following all the hard work which took place over the last eight weeks of our 'Bacton Current' when we focused on improving children's quick mental recall they should find the check quite straight forward.

Yours sincerely

David Hopkins

Head of school - Bacton
