

18th September 2024

Dear Bacton Parents,

**Lath and Plaster Ceiling Update**

Following my letter last Friday, I wanted to provide an update regarding the inspection by NPS that took place this morning at Bacton Primary.

Unfortunately, part of the ceiling in the corridor leading to Seahorse class will require some remedial work, although this is not due to issues with lath and plaster. This will involve supporting it temporarily with Acrow props in the lead up to the work commencing. We will update you further as the works progress.

While this situation is far from ideal, the safety of our children and staff is our top priority.

I will keep you informed with any further updates.

**Simon Wakeman**
