AIM Federation: Small schools, big opportunities

11th March 2025

Dear Parent/Carer

Re: Bacton Year 6 Dyson STEAM (Science, Technology, Engineering, Arts & Maths) Outreach event

I am very pleased to announce that on 25th March, our year 6 children have been invited to attend Gresham's Senior School to take part in the Dyson STEAM (Science, Technology, Engineering, Arts and Maths) Outreach event.

As this is a fully funded outreach opportunity there will be NO CHARGE for this event.

Please complete this survey by Friday 21st March to give consent for your child to attend and confirmation you are available to collect your child at the later time of 5.15pm.

This will be an exciting opportunity for the children to team up with their peers and undertake STEAM projects and activities, many of which will have been devised by experts at the James Dyson Foundation and taught by Gresham's teachers.

Gresham's teachers across all five subjects will set exciting and fun tasks for the participants, introducing them to new techniques and equipment whilst showcasing the power of STEAM and its impact in the world.

The session is 3 hours long (1:30pm to 4:30pm) so we will be leaving school at 12:50 travelling by Coach and returning back to school at 5:15pm and accompanied by school staff during the visit.

Kind Regards

Robbie Houghton
